--Section 5 RMA Program Deficiencies*153 General Procedure**

A**Background**

RMA maintains existing crop insurance programs and contracts for the research and development of new products. Pilot crop insurance programs are offered on a limited basis in selected States and counties. Crop programs and pilot programs are periodically evaluated. Program audits may be initiated by RMA or OIG.

Insurance providers have a Standard Reinsurance Agreement with RMA to sell and service Federal crop insurance policies according to FCIC-approved policies and procedures. Indemnities are to be paid only for losses because of insured perils that occur during the insurance period. If reinsured crop insurance policies or actuarial documents are deficient, the resulting indemnity payments may not represent compensation for losses because of drought, flood, or other natural disaster as required by the Federal Crop Insurance Act.

B**Purpose**

This section provides procedure to:

- C define RMA program deficiency
 - C advise FSA of probable RMA program deficiencies
 - C advise FSA of identified RMA program deficiencies
 - C identify FSA programs that may be impacted
 - C inform County Offices of corrective action.
-

C**Definition of
Program
Deficiency**

A program deficiency is defined as a defect in a policy or county actuarial document that result in excessive indemnities being paid to producers outside the authority of the Federal Crop Insurance Act as determined by RMA's Administrator.--*

153 General Procedure (Continued)

*--D

**Identified/
Probable
Deficiencies**

RMA may provide States Offices with Reports of Probable and Determined Program Deficiencies and Policyholder Alerts identifying producers and associated counties with coding to identify RMA areas of deficiency and/or policyholder alert concerns.

Although the wording “sections” and “parts” may be used interchangeably when referring to codes, following are code definitions with required County Office actions.

Code	Definition	Action
Code 1	provides details on policies with final determinations by RMA but without corrections to the database. There is still an opportunity for appeal and further review although RMA Compliance has determined with some certainty that there is a problem with the policy.	FSA shall carefully review and compare policy information with producer information. If the producer also participates in FSA programs, ensure that program payments are correct.
Code 2	contains information on RMA programs that RMA Compliance has identified as having potential problems that could cause downloaded data to be in question.	County Offices shall review producer applications, if applicable, and request supporting documentation as necessary.
Code 3	lists producers for whom preliminary information indicates a problem may exist for those producers identified as potential problems.	FSA shall not rely entirely on the RMA data at face value for these producers and shall verify the accuracy of each producer’s application and certification, if applicable.--*

154 Responsibilities

A RMA Responsibilities

When a probable program deficiency is identified, RMA shall:

- Ⓒ conduct analysis necessary to evaluate the deficiency after a preliminary assessment indicates that a potential problem may exist
- Ⓒ provide a preliminary notification of the crop program and counties that may be impacted to affected STC, with a courtesy copy to DAFP to ensure that FSA is aware that a probable program deficiency is being evaluated
- Ⓒ prepare a decision memorandum for the Administrator providing the following:
 - Ⓒ the background
 - Ⓒ alleged program deficiency
 - Ⓒ assessment of issue
 - Ⓒ the amount of indemnities paid that are determined to be in excess of compensation authorized by the Federal Crop Insurance Act.

The RMA Administrator, or designee, will determine whether the probable program deficiency has merit and requires written notice of a program deficiency determination to DAFO and affected STC.

When authorized by the RMA Administrator, RO shall notify the appropriate STC in writing of identified program deficiencies, with a courtesy copy to DAFP. The written notice will include:

- Ⓒ explanation of program deficiency
- Ⓒ RMA data affected
- Ⓒ policyholders affected
- Ⓒ indemnity amounts determined to be excess.

Note: RO shall FAX a courtesy copy of all written notifications to STC for a probable or proven program discrepancy to DAFP, at 202-690-2130.
